## BOOK SYNOPSIS

Cooperation among the developing countries is a means of resisting the deterioration of their economic position. Dr Saksena argues that the prevailing geopolitical conditions are such that it is only natural that India should forge closer links with ASEAN, which already has strong ties with Japan, Australia and North America. He identifies potential areas for increasing cooperation in the region and explains why this has not yet been achieved.

**PROBLEMS OF COOPERATION FOR DEVELOPMENT** - Are you looking for Ebook Problems Of Cooperation For Development?
